## How did we get here? The Challenges Before TEFRA

---

- Pre-TEFRA
  - › Audits were conducted at the partner-level; if the IRS wanted to adjust a partnership item, IRS had to audit each partner individually
  - › Created duplication of efforts
  - › Led to inconsistencies in how partners were treated

## How did we get here? The Challenges of TEFRA

- TEFRA

- › Enacted in 1982 to address inconsistent partner treatment and inefficiencies of partner-level audits by allowing the IRS to audit partnership items at the partnership level.
- › Two Problems with TEFRA:
  - Procedures are administratively complex. Tax Court described the TEFRA rules as “distressingly complex and confusing.”
  - Tax is assessed and collected at the partner level. In complex tiered-entity structures, it is time consuming and difficult for the IRS to identify and assess the tax from the ultimate tax-paying partners.

## Source of the Partnership Audit Rules

- Enacted Legislation:
  - › Bipartisan Budget Act of 2015 (the “BBA”) as modified by the Protecting Americans from Tax Hikes Act (the “Path Act”)
- Tax Technical Corrections Act of 2016
- Tax Technical Corrections Act of 2018
