Home care benefits in a time of pandemic (and in regular times)

- ❑ COVID -19 illustrated the need for a comprehensive planning for long-term care program for clients.
- ❑ Programs take time to organize information, review options, collect information for the application, process the application and start benefits.
- ❑ Interest list required for one Medicaid home program (StarPlus Waiver).
- ❑ Misunderstanding on public benefits (example: VA benefits only if injured in war).
- ❑ Practitioners should start reviewing the programs as soon as possible- even if client(s) are healthy and still working.
