

RECEPTION

Stahl, Bernal, Davies, Sewell & Chavarria, LLP | sbaustinlaw.com/

Since 2000, Stahl, Bernal, Davies, Sewell & Chavarria, LLP has helped its clients build over 7 GWs of wind, solar and natural gas energy generation plants. The firm has worked on the development, finance, acquisition and sale of energy projects in Texas, California, Illinois, Kansas, Nebraska, Pennsylvania, Oklahoma, Indiana, Oregon, Colorado, Maryland, Arizona, Georgia, and North Carolina. Its current energy practice also includes energy storage and natural gas energy generation projects in Texas. Our lawyers are experienced in the preparation of wind, solar, and geothermal energy leases, easements, options and purchase agreements, property tax abatement and tax limitation agreements, environmental matters, crossing agreements, BOP/EPC construction contracts, and mineral surface waiver agreements. We analyze and resolve the myriad of legal, title, environmental and survey issues arising in the development of energy projects and help clients plan for future challenges. We work closely and collaboratively with project finance counsel to coordinate the real estate instruments, governmental approvals, surveys, title policies, and legal opinions necessary to close deals. In addition to our transactional work, we counsel clients regarding the regulatory framework of the Texas Public Utility Commission, Texas franchise and sales tax issues, and permitting matters.

TUESDAY LUNCHEON

Andrews Kurth | andrewskurth.com

WEDNESDAY LUNCHEON

Orrick, Herrington & Sutcliffe LLP | orrick.com

Orrick, Herrington & Sutcliffe LLP has a widely recognized renewable energy practice, with over 150 lawyers focusing on the energy industry globally. We've been working on renewables projects for almost 40 years, and today our team works across 25 offices on four continents, representing prominent industry participants in virtually every sector of the industry, including solar, wind, geothermal, biofuels, hydro, landfill gas and storage. Our team members not only understand the legal aspects of renewable energy transactions, but we are intimately familiar with the key commercial issues that drive our clients' businesses and success. For this reason, the most successful industry participants consistently select us for their most important transactions in renewable energy, including development, finance and M&A.

SPONSORS

8minutenergy Renewables

Founded in 2009, 8minutenergy Renewables is the nation's largest independent developer of solar photovoltaic (PV) projects. The company's mission is to make solar energy abundant, and be the industry leader in lowering the cost of solar PV. To date, 8minutenergy has nearly 5.5 gigawatts under development in North America, been awarded more than 1.5 GW in power purchase agreements, and is developing some of the largest solar plants in the world, including the 800 MW Mount Signal farm in California. 8minutenergy has an unmatched ability to produce affordable clean energy and to deliver strong financial returns on utility-scale solar projects. For more information, please visit www.8minutenergy.com.

FOLEY & LARDNER LLP

Foley & Lardner LLP | foley.com/energy/

Foley's Energy Industry Team helps clients address regulatory and legal concerns to keep their traditional and renewable source projects on track. Whether you are a company whose core business is energy or you are handling projects that involve some facet of the energy industry, Foley's Energy attorneys are key strategic partners — from due diligence, negotiation, and regulatory approval to closing. We have a long history of successfully managing energy projects and financings, particularly involving renewable fuel sources such as onshore and offshore wind, solar, hydro, geothermal, biomass, ethanol, and biodiesel. Our services to the renewable energy market are comprehensive and include permitting, community relations, land rights, equipment procurement, construction, finance, power purchase arrangements, interconnection and project acquisitions, mergers, securities offerings, compliance issues, litigation, joint ventures, and divestitures. We are one of the most experienced law firms in structuring transactions to best utilize the federal production tax credit, the investment tax credit, and the grant in lieu of investment tax credit — the Section 1603 grant.

Haynes and Boone, LLP | haynesboone.com

Haynes and Boone, LLP is an international corporate law firm serving clients involved in some of the most innovative renewable and alternative energy projects in the world, as well as traditional power generation projects. Our clients benefit from our broad experience in regulatory, environmental and transactional legal work as well as our strategic planning advice with regard to both regulatory and commercial risks. Our lawyers work with start-ups, investors, joint venture partners, power generators, power marketers, retail electric providers, independent power producers and electric utilities. With more than 550 attorneys in offices in Texas, New York, California, Chicago, Denver, Washington, D.C., Mexico City and Shanghai, Haynes and Boone is ranked among the largest law firms in the nation by *The National Law Journal*.

MAS Field Services, LLC | masfieldservices.com

MAS Field Services was created in 2010 to help renewable energy developers build their project portfolios. Based in Texas, MAS has spent years covering projects in virtually every ERCOT Zone ranging from 1MW distributed generation sites up to 150+MW utility scale wind and solar projects. Since our beginnings we have been involved in some fashion or another on projects in multiple states from Arizona to Alabama, and from Texas up through the mid-west. MAS is driven by a belief in sustainability and the ever increasing needs of a growing population that can be met by renewable energies. Our mission is to help our clients bring those energies to market one acre at a time.

Skadden, Arps, Slate, Meagher & Flom LLP | skadden.com

With approximately 1,700 attorneys in 22 offices on four continents, Skadden is widely recognized as one of the world's leading corporate law firms. In addition, Skadden has one of the world's most experienced and leading practices focused on energy and infrastructure transactions, including project finance and project development across all fuel types, mergers and acquisitions, joint ventures, regulatory/litigation and environmental. With energy and project finance attorneys in Texas, Washington, DC, New York, Beijing, Hong Kong, London, Moscow, Singapore and Toronto, Skadden has closed hundreds of difficult and complex transactions throughout the Americas, Europe, Africa, Asia and the Middle East involving energy-related and other infrastructure facilities.

Skadden was recognized as one of the top energy and projects firms in the areas of oil and gas, power, electricity, and renewables and alternative energy in 2016 by Chambers Global and Chambers USA; ranked in the top tier for energy, project finance, and oil and gas by U.S. News — Best Lawyers "Best Law Firms" 2016, and ranked in the top tier for energy (regulatory) by Legal 500 2016. In the 2013 Financial Times' "U.S. Innovative Lawyers" report, we received the top ranking in the Corporate & Commercial category for our representation of a consortium of private equity firms to create one of the world's largest owner/operators of shallow water drilling rigs from the ground up.
