Disclaimer

There are actually more than 10 cases in this presentation from Sept. 2018 to February 2019. I can't guarantee that you will be satisfied with any of these cases or that these will be cases that you actually want me to talk about, so you may need to refer to the paper which summarizes all of the cases during this period anyway. If you are prone to dizziness, molting, psoriasis, tetter, or death this presentation may not be for you, so ask your doctor before trying this presentation. Again, no presentation can be an adequate substitute for your own personal voyage of legal self-discovery or even countless hours wasted checking social media for legal interpretations by non-lawyers of significant decisions by the United States Supreme Court. You might even be better off just playing Pokemon Go for the next hour. So hey, here's a Squirtle.
